Studio Beom · Workshop and guest room

Plan and elevations, drawn from the 3D model. Dimensions in cm. September 2026. studiobeom.co.uk

Plan (day, trundle shown dashed)

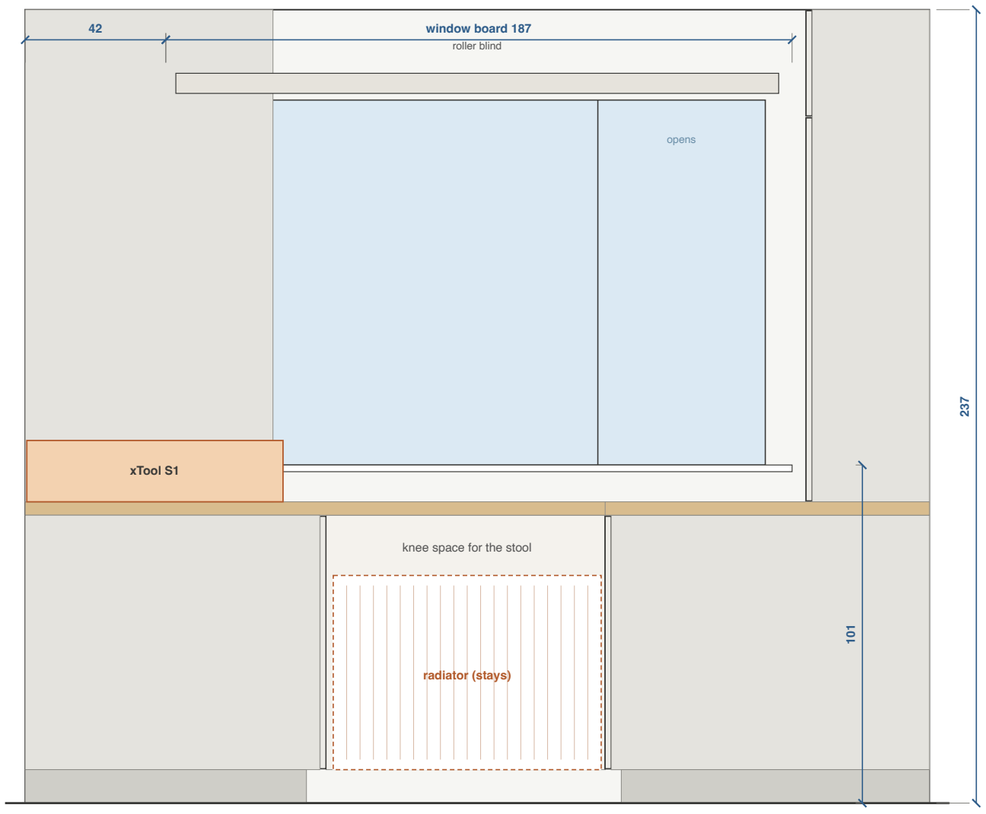

Door wall: printers, filament, door

Scheme

- **Finish:** painted raised-panel doors and drawers, brushed-nickel bar handles, oak worktops.
- **Day:** 2.6 m² of fixed worktop, plus a 2 m² counter over the bed. The xTool sits in the window corner beside the printers, with a hose out of the window when cutting. The middle of the window is a stool-height desk over the radiator.
- **Guests:** the counter front folds onto the counter, then both lift to the wall. Two people. Hidden push latches, plus a bolt, under the drawer band. The trundle pulls out towards the TV wall.
- **Storage:** drawers under the TV-wall worktop and over the bed, lift-up cupboards above, an open towel shelf at the door end, a pull-out sheet rack and a deep corner store in the old dead corner, a tall cupboard from the worktop to the ceiling beside the window, and the built-in cupboard kept for towels and bedding.
- **Door:** 75 cm, hinged on the middle side. Nothing above it.
- Dims in cm. Window glass, radiator and cupboard positions estimated from photos.

Window wall: laser corner, desk, corner store

Bed wall: fold-away counter over the daybed
